Gray Portland Cement and Cement Clinker from Japan; Final Results of Antidumping Duty Expedited Sunset Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Expedited Sunset Review: Gray Portland Cement and Cement Clinker From Japan.

SUMMARY: On August 2, 1999, the Department of Commerce ("the Department") published the notice of initiation of sunset review of the antidumping duty order on gray portland cement and cement clinker from Japan (64 FR 41915), pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). The merchandise covered by this order is gray cement, which is hydraulic cement and the primary component of concrete, and cement clinker, which is an intermediate material produced when manufacturing cement and has no use other than grinding into finished cement. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response (in this case no response) from respondent interested parties, we determined to conduct an expedited sunset review. Based on our analysis of the comments received, we find that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the levels listed below in the section entitled *Final Results of the Review*.

EFFECTIVE DATE: March 3, 2000.
